

Union Yes

MaryBe McMillan

Union...

It's time to take back the word
So the benefits of unions are heard

Don't let the bosses define unions as bad
Not when unions are the best thing workers ever had

Unions create shared prosperity
But people saying so is such a rarity

If you support workers' right to organize,
It's something you should proudly verbalize

Tell your neighbors and your friends
So that everyone comprehends

Unions benefit us all
And without them, living standards fall.

All around us now income disparity
What we need is worker solidarity

Strength in numbers, a collective voice
That's what workers get when they have free choice

So say it loudly
And say it proudly

The answer to working harder for less
Is and always will be: Union Yes!
