

Workers Rights Hearings

APRIL 4th

— STILL FIGHTING FOR THE DREAM —

April 4th marks the 49th anniversary since Dr. King was assassinated while standing with striking sanitation workers in Memphis, Tennessee. Across the nation on April 4th of this year, the Fight for 15 and allies in the labor and civil rights movements will come together to revive Dr. King's vision of economic and racial justice. In North Carolina, workers and allies will hold People's Hearings on Workers Rights to demand that elected officials raise wages and support the right to organize.
