

Who We Are

The North Carolina State American Federation of Labor-Congress of Industrial Organizations (NC State AFL-CIO) is the largest association of unions of working people in North Carolina, all working together to build a bigger, more engaged, more powerful labor movement to win victories for North Carolina working families. To do that, our state federation is focused on three areas of work:

- ★ **Grow the movement** by supporting organizing, and the broader worker fight-back including efforts to raise wages, strengthen our freedom to organize, and increase public support for unions.
- ★ **Engage and mobilize** our leaders, members, and community allies by communicating, educating, and activating around policy issues, political campaigns, and union fights.
- ★ **Build independent political power** for working people by driving a pro-worker legislative agenda, electing pro-worker candidates including our own members to office, holding elected officials accountable, and winning policies on all levels to help working people.

"My friends, it is solidarity of labor we want. We do not want to find fault with each other, but to solidify our forces and say to each other: 'We must be together; our masters are joined together and we must do the same thing.'"

-Mother Jones

Dear Union Leader,

Businesses know the benefits of working together to advance an agenda that all too often puts profits over working people.

Together, we are building a movement that is constantly growing—a movement with the power to change our state. We hope you will join us!
