CLOSE LOOPHOLES for Wall Street and the richest 2% of Americans and CANCEL SEQUESTRATION

Congressional Republicans are taking the economy hostage again—threatening to blow it up unless vital services for working families are cut. **Call your members of Congress Feb. 14 and tell them to stand up to these bullies,** reject benefit cuts for Social Security, Medicare and Medicaid and cancel the across-the-board budget cuts to food and workplace safety, education and more. Instead, Congress should close loopholes for Wall Street and the richest 2%—especially loopholes that encourage job offshoring, allow corporations to pay no taxes, enrich the already wealthy and bar the government from negotiating with drug companies to lower prices.
