

Kangaroo Consumers Demand Human Rights for Farmworkers

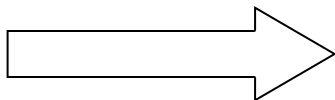

- ➔ **Kangaroo**, based in Cary, NC, is the largest convenience store chain in the Southeast.
- ➔ **Over 30%** of all Kangaroo sales come from tobacco products. McLane Co., Inc. is Reynolds largest customer and the largest distributor of tobacco products for Kangaroo.
- ➔ **Consumers** have delivered thousands of letters to Kangaroo stores and to their headquarters over the past year, asking the company to respond to their concerns about conditions in NC tobacco fields. Letters from community organizations and students groups have gone unanswered, and Kangaroo has yet to commit to visit the fields to see the conditions first hand.

Take Action.

Stand with farmworkers and demand that Kangaroo convey consumer concerns to Reynolds until there is a signed agreement with FLOC guaranteeing freedom of association to all farmworkers in their supply chain.

Join us at Kangaroo at 5:30pm every third Wednesday of the month!

**4202 Wake Forest Road
Raleigh, NC**
